Ron/Greta: I'd like to include a discussion of the major issues summary document with EPA's evaluation of issue resolution, attached. I believe I had shared a copy of this with you earlier, but we never discussed, since the in-person Rick/Jane meeting didn't/hasn't taken place. Never the less, these issues are still on EPA's radar screen, and I'm on the hook to keep Rick up to day on progress, and any outstanding issues that we need to refer to Rick/Jane for any additional action or discussion. Thanks!

Major Issue Summary Rev 1 07032007 notes 11072008 review.doc
